Summary of ITEMS OF NOTE as reported from DIV reports

- Michele Caggana gave a talk entitled “Overview of Newborn Screening Laboratory Processes and Quality Management” at the National Conversation on Informed Consent meeting in Washington, DC.

- A Medical Marijuana Laboratory (MML) is being established within the DEHS to comply with the enacted Compassionate Care Act of New York State.

- Laura Kramer participated in a Military Infectious Disease Research Panel.

- Jan Conn participated in an MIDB NIH study section.

- Myron Getman was invited to give a talk on the development of NY method 198.8 and the analysis of vermiculite-containing materials for asbestos at the 2016 AIHA Michael Beard Conference.

- As of June 2015, there are 83 active NYSTEM research contracts and 17 pending DOH and DOB approvals for award.

- There are peer reviews of 10 Spinal Cord Injury applications for Individual Predoctoral and Postdoctoral Fellowships underway; as well as planning for the peer review of 56 Breast Cancer Scientific Research applications.

- Michele Caggana chaired the New York Mid-Atlantic Consortium Summit Meeting in Baltimore, MD.

- Haixin Sui presented an invited talk at the 4th Chinese National Symposium on Cryo-EM and Structural Biology, Beijing, China.

- Alan Antenucci and Michael Perry provided didactic and hands-on CODE RED Biothreat Sampling training to thirteen members of the NYS Troopers Special Operations Response Team.

- Dr. Laura Kramer was an invited plenary speaker at the ASM Biodefense and Emerging Diseases Research meeting “Virome profiling of mosquitoes reveals extensive viral diversity” in Washington DC.

- Michael Marko spent three days in an intramural lab at NIH advising on aspects of Electron Microscopy.

- Stewart Sell served as a visiting professor at the United Arab Emirates College of Medicine and Science.

- Haixin Sui made a keynote speech at the 2015 National Symposium on EM techniques for Medical, Agriculture and Forestry Sciences, Zhejiang University, Hangzhou, China.

- A Medical Marijuana Laboratory (MML) is being established within the DEHS to comply with the enacted Compassionate Care Act of New York State.
